

California Funding Local Projects

ECONOMIC RECOVERY AND REINVESTMENT ACT OF 2009

The Act Will Fund

Transportation, Roads and Bridges

- Resurfacing of local streets and roads
- Highway construction
- Transit and rail
- Bridge modernization
- Flood control
- Environmental restoration

Renewable Energy Projects

- Energy efficiency block grants
- Smart appliances

Water Quality Projects

- Sewer line replacement
- Wastewater treatment upgrades
- Recycled water systems
- Stormwater projects

State Drinking Water Projects

- Watershed protection
- Water conservation
- Storage tanks
- Water line replacement
- Groundwater supply systems
- Water treatment systems

Position Your Agency to Receive Funds

The act prioritizes “shovel ready” projects. These are projects with complete:

- Plans & specs
- Environmental documentation
- Permitting
- For local street projects, the project must be “ready to construct” within 90 days of approval of the Federal Act.

The act emphasizes speed. Agencies need to get on the priority list for the Clean Water or Safe Drinking Water State Revolving Fund (SRF) programs and your local transportation agency’s project lists.

- For drinking water projects pre-applications are due by February 27, 2009.
- For wastewater and stormwater projects, if the project is not on the SRF list, it should be added by March 24th.

Winzler & Kelly can help your agency by:

- Submitting pre-applications
- Compiling full applications
- Preparing and updating CEQA and NEPA documents
- Preparing plans & specs
- Managing construction
